Statement of conclusions of inspection in accordance with Article 90(b) of the Safeguards Agreement (INFCIRC/283)

Sir,

I have the honour to refer to Article 90(b) of the Agreement between Indonesia and the International Atomic Energy Agency for the Application of Safeguards in Connection with the Treaty on the Non-Proliferation of Nuclear Weapons (INFCIRC/283). I also refer to the IAEA statement for Material Balance Area Outside Facilities in Indonesia (RIZ-) sent to you in accordance with Article 90(a) of that Agreement during the material balance period.

Material balance area RI-Z:

The IAEA has concluded from its verification activities carried out at RI-Z during the material balance period from 11 August 2020 to 15 June 2023, and based on the information available to date in connection with such activities, that all declared nuclear material has been accounted for and that there were no indications of the undeclared presence, production or processing of nuclear material.

Should you have any comments on the above statement, I would be grateful to receive them at your earliest convenience.

Accept, Sir, the assurances of my highest consideration.

Mohamed Lamari

Director

Division of Operations A

Department of Safeguards
